2.4 GHz Digital Video Baby Monitor with Night Vision

HITACHI
Inspire the Next

mySIGHT

Screen Size 2.4" Video Monitor

The 2.4" high-resolution color LCD display on the handheld monitor delivers a clean, crisp picture for continuous daytime and nighttime monitoring. For added convenience, the mySIGHT baby monitor has an attached belt clip that doubles as a kick stand.

Touch Key LCD

The mySIGHT baby monitor offers a touchscreen interface that's easy to use and allows you to control all of the functions of the camera with just a touch of your fingertips.

Night Vision

The mySIGHT baby monitor utilizes the latest of night vision technology to provide you with the most optimized view of your baby, regardless of the lighting condition. In a bright sunny room or after lights-out, you can rest assured that you will be able to see your baby's every little movement without a hitch.

Temperature Sensor with Alert

The mySIGHT comes with a built-in temperature sensor to monitor the comfort level of your baby's room. There is also a temperature alert feature that notifies you should the temperature fall outside of your set range.

Two-Way Talk

The mySIGHT baby monitor goes above & beyond your traditional baby monitor. With the two-way talk feature, you aren't only restricted to just hearing your baby, but actually being able to talk back to your baby through the built-in mic to soothe and comfort your baby with your voice.

Expandable up to 8 cameras

The mySIGHT baby monitor is one of the first to support up to 8 cameras, enabling you to keep a watchful eye & monitor all rooms and children.

**Additional cameras sold separately.*
